After considering all the subjects Mr. Akhil Kumar Gupta said that the times are changing, 80% Engineers are unemployed, taking into consideration the fact, we / faculty should continuously guide the students, understand their capability of soft skill, help them to develop their soft skill. Girl's students are sensitive hence, we should handle them with full and proper support. While teaching the students faculty should analyze the capability of the students, human sociology, dignity of labor, commitment to the society, group behavior etc. and accordingly we have to plan our teaching activity.

There being no other business, Hon. Chairman concluded the meeting with vote of thanks.
